# Supervisors Settle The Paele Affair And Play With Treas. Trent LARGE AMOUNT OF ROAD WORK TALKED

The Supervisors met last night and, by report of Supervisors Lucas and Moore, which was unanimously adopted, exonerated Supervisor J. K. Paele. The report was as follows:

Your committee appointed to investigate the charges made by Mr. Keau against Supervisor Paele and the counter charges of Supervisor Paele against Mr. Keau beg leave to report as follows:

The bone of contention seems to be the method of construction of the bridge at Punahoa.

Your committee made an inspection of the work under construction and examined witnesses at Punahoa and Lale with reference to the various charges and counter-charges.

There is no doubt that gross carelessness and ignorance has been shown by the workmen employed on the bridge in the foolish and incompetent method employed in building the concrete retaining wall, loose rock being dumped into the water until it reached high water mark and the concrete built thereon, the result being that it would not stand the pressure required.

Your committee states for the benefit of the Board that the present concrete wall is built on a good coral foundation and will be lasting and durable.

The charges made that the men employed by Keau on the bridge were intoxicated is true. It is a fact that there is no love lost between the various factions living in Koolauloa district. Since the inauguration of County government more money has been appropriated for road work than ever before and the various factions are clamoring for the lion's share of the work.

Mr. Keau we believe is an honest and well meaning man, but he is not able to cover the district allotted to him.

The charges made against Mr. Paele are not borne out by facts and are frivolous and should be dismissed. Mr. Paele deserves a great deal of credit for the interest and time he has given to the work, the results being apparent to anyone who has watched the work on the windward side of Oahu.

Your committee would suggest a division of the Koolauloa district into two districts, one from Kuaia to Hauula and the other from Hauula to Hanalei, and would further recommend that Mr. Andrew Adams be appointed overseer for Waimea, Lale to Hauula, to serve without pay, he to appoint his luna from his district, such luna to receive pay from the regular monthly appropriations.

JOHN LUCAS,  
H. T. MOORE.

The meeting opened at 7:40. Present were Supervisors G. W. Smith, chairman; H. T. Moore, Frank Archer, J. K. Paele, E. R. Adams, Andrew Cox and Jack Lucas; Clerk Kalaokalani, Auditor James Bicknell, Stenographer Aea, C. Bolte, Deputy Attorney General M. P. Prosser, County Attorney E. A. Douthitt, Clerk Buffandean, Auditor's Clerk Mahelona, Mr. Mendonca and members of the press.

The Chair called for a report from the special committee appointed to investigate the Koolauloa road trouble. This report was read by the Clerk as above.

Archer thought the report all right except that the suggestion of dividing the district would, if carried out, be an extravagant use of money.

Moore insisted that the district was big enough for two men to keep both busy traveling.

Archer said Ewa, a bigger district, had only one overseer. Moore and Lucas reminded him that there was a railroad through Ewa.

Adams moved the adoption of the report.

The Chair asked Archer if he thought the work in Ewa could be better done by two men.

Archer thought Nawakoa could do better alone.

"But if we were to lose Nawakoa—of course he is an exceptional man," said Mr. Smith.

Archer thought one man who knew his business was enough in Ewa.

Moore said the report exonerated Mr. Paele and then, as he understood it, made certain recommendations. Keau should not be retained. He was incompetent.

Cox seconded Adams' motion of adoption. The motion carried.

The Chair: "Mr. Paele, I congratulate you upon your exoneration." Paele moved that Ah Sing be asked to appear before the Board to receive instructions. Carried.

Adams said the Board would probably receive a proposition in regard to a memorial band stand at Aala park for the Japanese dead in the Russian war. It was merely a question whether the Board would consider it or not.

County Attorney Douthitt, as requested, gave his opinion on the significance of Section 63 of the County Act, saying: "It appears to me that the language of Section 63 is sufficiently plain and is not in need of interpretation." He added: "The 'budget or estimate of expenditures' can not be construed in the nature of an appropriation for the amounts therein named."

Following is Section 63: Section 63. It shall be the duty of the Board of Supervisors on the 15th day of December to prepare a budget or estimate of expenditures for salaries and pay rolls and for public improvements, within their respective Counties for the ensuing fiscal year. The combined estimated expenditures shall not exceed the estimated income of the County for the same period.

Road Supervisor Sam Johnson sent in a report for November. The regu-

lar pay roll amounted to \$1743. Expenditures under the general fund totaled \$13,256.37, a grand total of \$14,999.37, leaving a balance of 63 cents.

Superintendent of Public Works C. S. Holloway wrote the Board to say that arrangements have been made whereby it will be possible to immediately carry out the agreement between the Bishop Estate and the Government re the filling of the lily pond and the construction of a new picket fence, to be started as soon as the Rapid Transit has been in the necessary connections for their track.

M. F. Prosser, appearing for Hackfeld and Spencer streets residents, said there was a crying need for macadam on Hackfeld street. All the machinery was in that neighborhood, the job was a small one and the macadamizing of Hackfeld was necessary to complete the improvement of the district. He thought he could get the residents to curb.

The Kakaako Improvement Club sent in a petition asking that the law lands of Kakaako be filled in. Adams thought the Kakaako petition should go to the Territory. He moved that it be referred to the Public Works. Carried.

Curbing and automobile ordinances were read by title and passed second reading.

Lucas suggested calling for tenders for a storm drain for Hackfeld street. Sam Johnson said the road department could do the job cheaper itself.

Adams was for deterring macadamizing Hackfeld street until other urgent work was accomplished.

Archer was for immediate action. The Chair said there would be another meeting of the Board on the 15th in the meanwhile the matter could be more carefully looked into.

Lucas reported the Pali road in bad condition. He thought that the work should be put out to contract and the road put in shape inside of 90 days. The bridge also should be fixed. Tenders should at once be called for or the Board should set aside money for the repair of the road. Moore said he'd hate to have to roll a steam roller over the bridge as it is now.

Adams said some outside persons would have to work it. Moore moved that the Road Committee prepare specifications and call for tenders for the work. Carried.

Archer said he had talked with a tax assessor and the latter had asked him to bring to the attention of the Board the fact that a lot of road workers had not paid their taxes.

"Do you think this Board should be a collection agency?" asked the Chair. Moore didn't think Government employees should go free of taxes.

Paele said that in his district he had told the assessor to call on the men on pay day.

Lucas said that at his mill the management held out money to pay the men's taxes.

"It seems the sense of the Board," said Smith, "that the County members inform the road overseers that men who don't pay their taxes won't be employed."

Paele asked for a steam roller and a rock crusher for his district. The cost will be ascertained and the matter acted on later.

County Treasurer Trent had a letter addressed to the Clerk, in part, as follows:

I have the honor to acknowledge receipt of your communication as follows:

"At the meeting of the Board of Supervisors held the 5th inst. in their office, McIntyre building, I was directed to acknowledge receipt of your communication relative to a request for payment by the Board of the sum of two hundred (\$200.00) dollars for professional services rendered by Judge Whiting in re Blanket Warrant Test Case. I am also directed to inform you that the Board of Supervisors can not appropriate County money for personal bills."

While not desiring to enter into a
